

A crypto debit card and exchange service that lets you spend crypto simply, wherever you go.

Why CryptoWallet?

As the Web 3.0 space evolves, more people are receiving their salary in cryptocurrency. An estimated 10% of internet users now own crypto, a 275% increase between 2021 and 2022.

With banks and financial institutions adopting crypto payments and financial services worldwide, the market will only increase, but it remains difficult to receive, use, and spend crypto for everyday purposes.

The inability to use crypto as money in the real world is a major barrier to wider adoption. Introducing the CryptoWallet Crypto Card.

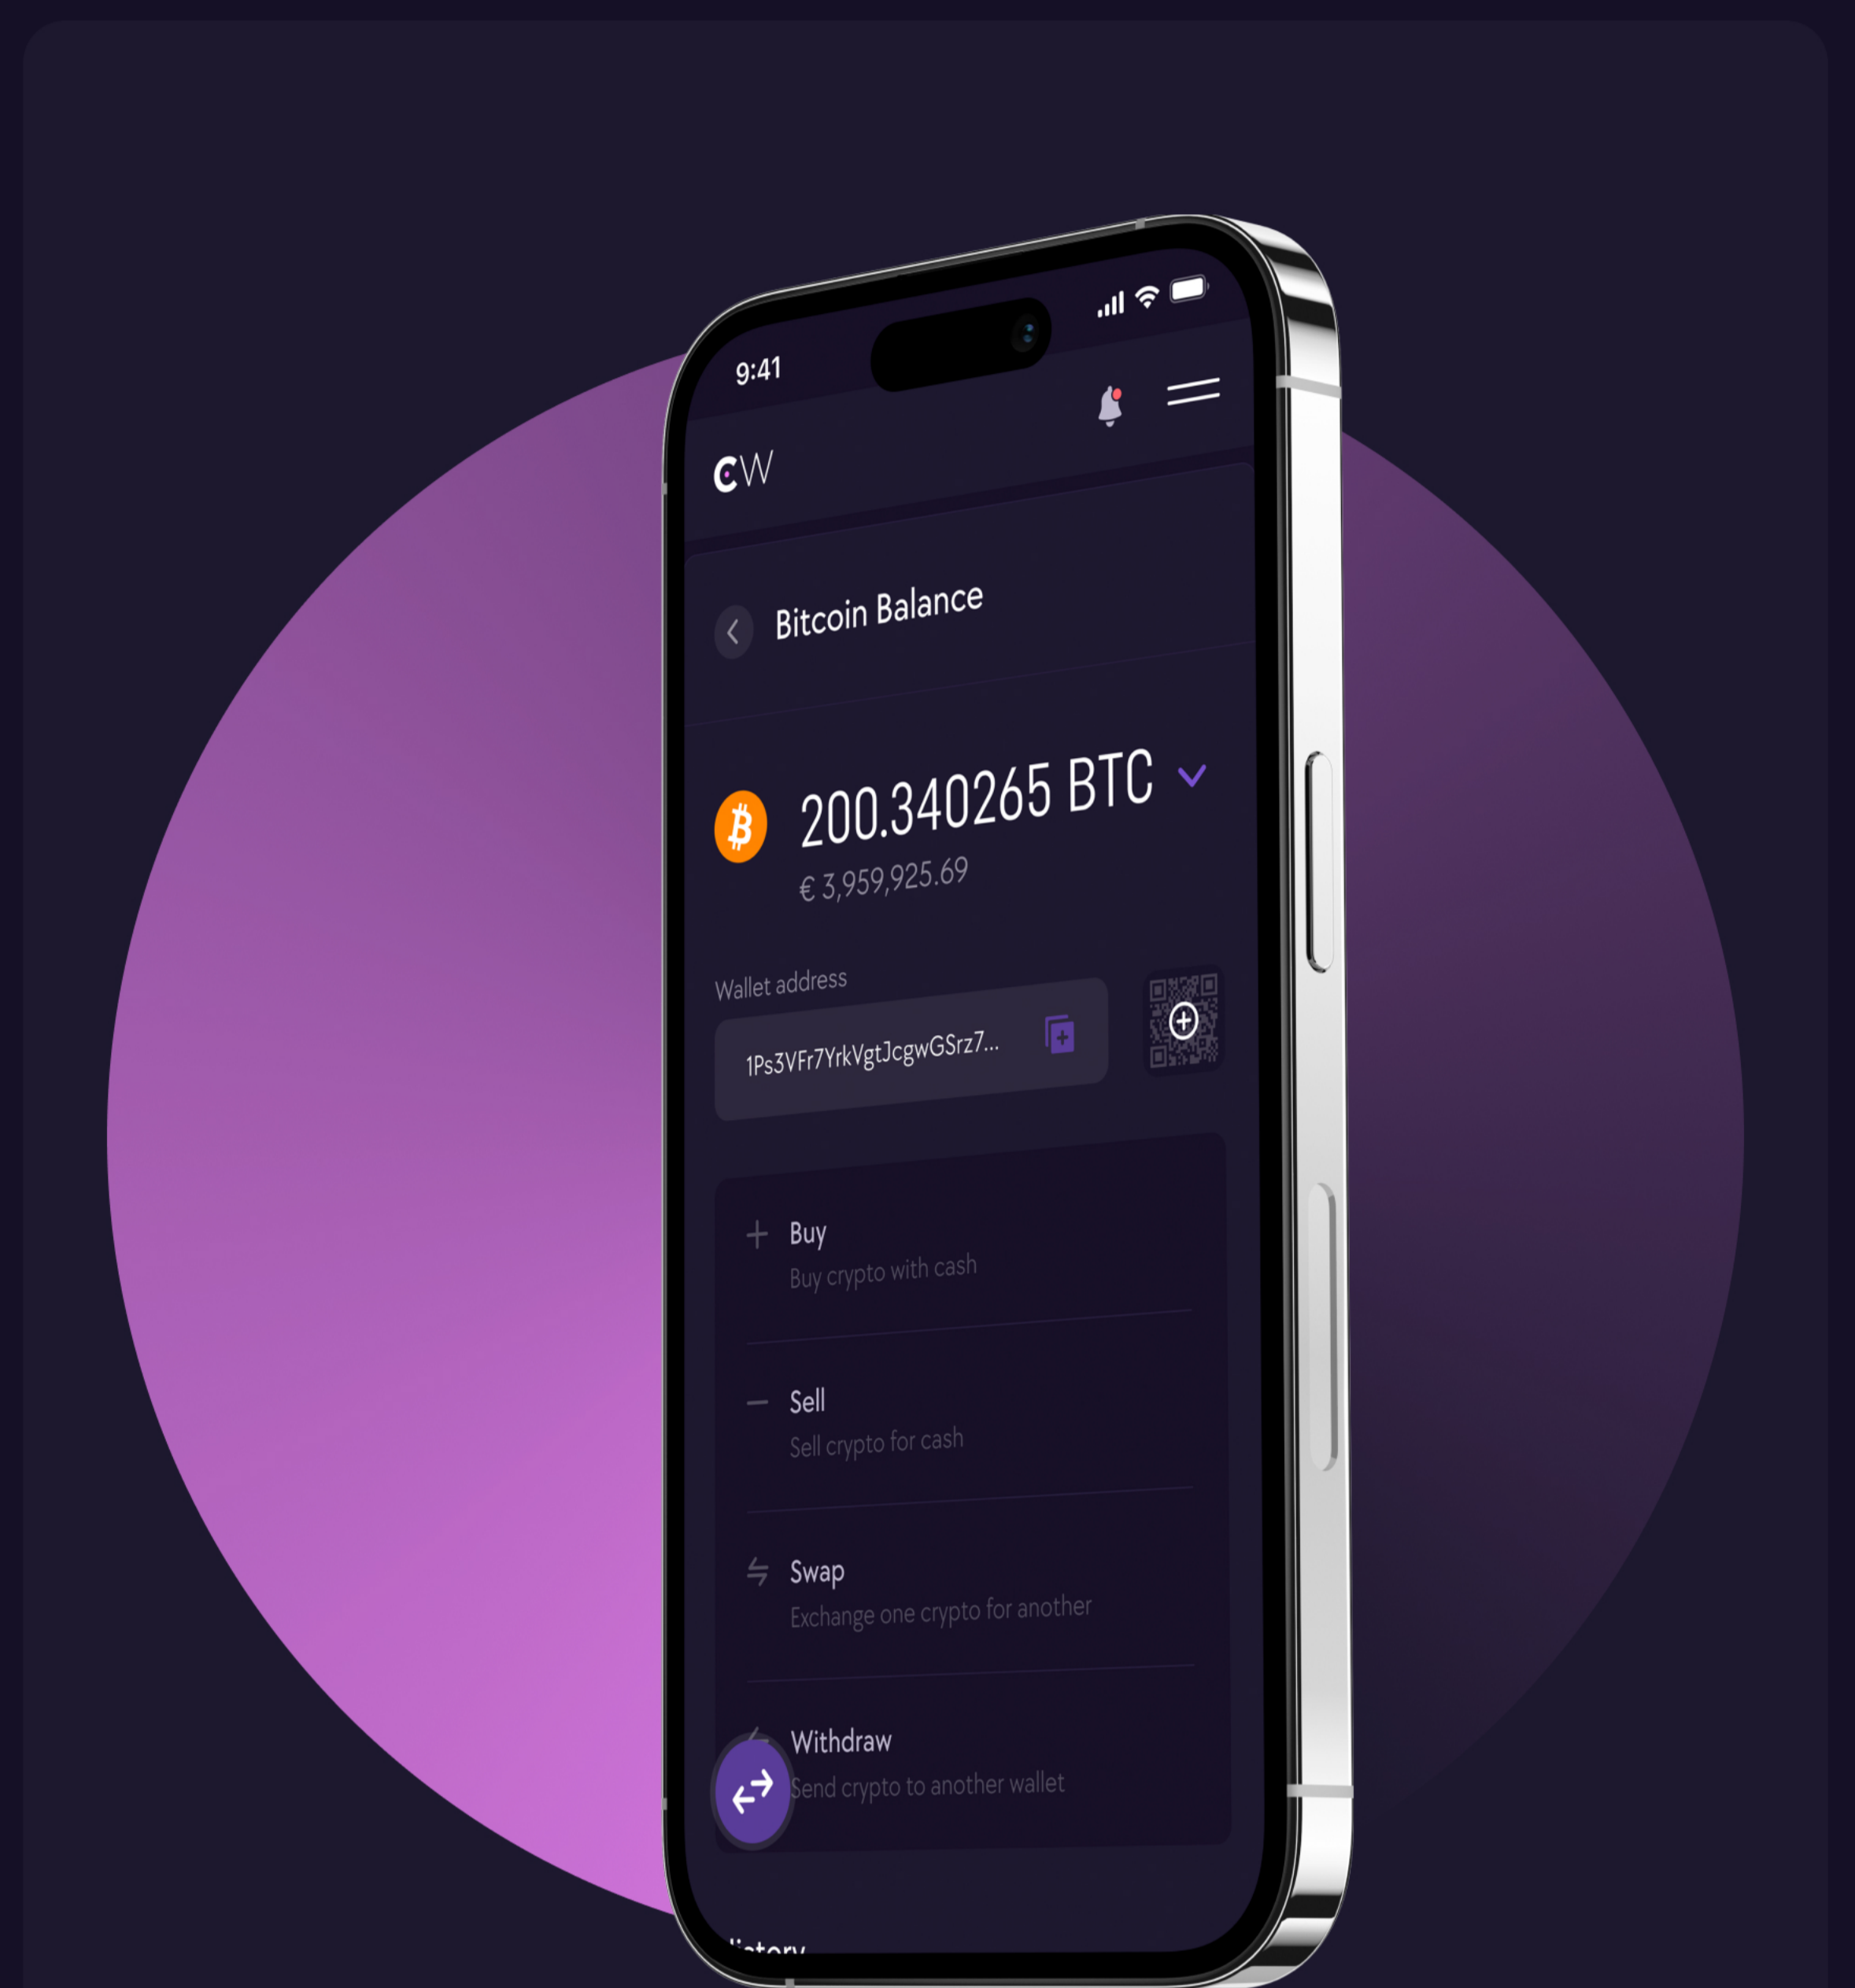

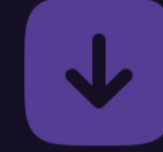

How Does it Work?

⇌ Swap + Store and Spend hundreds of cryptocurrencies from one single platform

- Receive salary or payment for services in crypto
- Bridge the gap between mainstream finance and crypto
- Low fees and more currencies than competing services
